

# Music Teachers' Instrument Insurance Plan

Music is essential in so many of our lives, providing endless joy and inspiring the soul. Just as essential as the music itself, so are those who teach others how to create it. Research has shown that those who learn how to play a musical instrument have both improved cognition and a greater sense of discipline.

Musical instruction doesn't come in a one-size-fits-all package, and neither should your insurance policy. Regardless of whether you head an entire music school, or simply teach guitar in your spare time, a music teachers' instrument insurance plan from Clarion Associates is here to help give you the peace of mind you need and deserve.
