## Why Should You Enroll For A Defensive Driving Course?

Our defensive driving course educates you about Florida traffic safety laws and regulations. You will learn information about best practices that you should be following while improving your driving skills. Taking a defensive driving course can help you get your tickets dismissed and even a discount on your insurance!

## We Can Help Get Your Tickets Dismissed

While we all do what we can to avoid getting a traffic ticket, mistakes can happen to the best of us. In Florida, you are given three options when you receive a citation: pay the fine, fight it in court, or attend a defensive driving course to reduce its severity. You may request to take our driving course in court, through the mail, or even on the citation's back. Doing so can significantly reduce the impact of the charge and fine, or even get the ticket dismissed outright.

Once you receive permission from the court to undertake a driving course, all you need to do is register for our program online. This course must be completed within 90 days after being permitted by the court, although you can complete it at your own pace during this window. Once you complete the course, DriveSafeToday will directly inform the DHSMV on your behalf. You will also be awarded a certificate of completion you can download and print out.

## You May Even Qualify For An Insurance Discount

We are proud to be the top-recommended driving school among insurance companies in Florida! The defensive driving course we offer can help you save money by getting a discount on your insurance. Contact your insurance provider to see if you qualify. If you are eligible, all you need to do is register for our defensive driving course and finish it within 90 days. Once you have completed the course, we will provide you with a certificate of completion to send to your insurance company to apply the discount.
