

# We understand the value of trust

**ABSLI Vision Star Plan**  
A non-linked participating life insurance plan

## Benefits and working

### •Medical treatment:

Hospitalization and medical care has become expensive today. So, when your child needs the medical aid; the child insurance plan comes to your rescue. By insuring your child's future through plans that provide such aid you not only safeguard their health but also save on huge medical expenses.

### •Educational purpose:

Child plan can be your superhero in disguise if your child wants to pursue his/her career at a premium college. Education has become expensive due to the rising inflation and so it is better to start early in order to reap the advantages of advance & timely planning by having your child's education plan secured.

### •Collateral security:

Child future plan can act as an added security against loans. In case of any need, you can use it to raise funds.

### •Financial support:

The policy comes with an added insurance benefit. So, when the parent dies the child/appointee gets the amount at the time of maturity along with an annual payout every year. This helps the child to manage financial requirements in the event of his/her parent's demise.
