DAMIEN HIRST, and the Souls.

Hirst's most strikingly beautiful work, *The Souls* is certainly his most accessible; it explores the fragile, beautiful and symbolic nature of the butterfly through the delicate textures of (metallic) leaf and foil.

The foil-block butterfly images are made up of 4 different butterflies in 80 different colourways, each one being an edition of 15. The idea being that our choice of shape, colour, texture and intensity are reflected elements of our 'Souls'.

The foil-blocking of each butterfly has been done in three stages: the base colour is accentuated by two more sparkling layers that pick out details on the patterned wings of the butterflies. The use of the foil-blocking technique creates additional details that can only be seen when you catch them in the right light, bringing an ever changing life to each image.

We are happy to leverage our relationship for you. CKI works directly with Damien Hirst and his publisher, Paul Stolper. With the increasing popularity of Damien Hirst and the dwindling availability of his 'Souls', only two collections remain in their entirety-making this a particularly exciting opportunity for CHI. Our relationship with Damien and Paul allows the best price for CHI with exclusive rights to the 'Souls' Collection.

HOW DOES IT WORK?

Our dedicated consultant will discuss your rental needs, help you choose a package, assist in insurance, and schedule installation.
