

Testosterone Replacement Therapy in Ohio | Advanced Age Management

This is your life. Let's take it back!

Advanced Age Management offers accessible, life-changing [Testosterone Replacement Therapy \(TRT\)](#) for men of all ages in Medina, Akron, and Cleveland, OH.

How TRT Can Change Your Life

About 1% to 2% of men experience low testosterone (Low T) beginning in their 40s.

Low T can decrease energy, trigger depression, diminish muscle tone and reduce sex drive. It can also impede blood circulation leading to possible complications with heart disease and diabetes.

With TRT, you can effectively boost low testosterone levels. Not only can it change your life, it could also save your life!

Benefits of TRT

By incorporating TRT into your daily life, you will begin to notice favorable changes to your energy level, sex drive, muscle mass and blood circulation.

Here are a few of the most noticeable changes:

- Increased Sex Drive
- Positive Mood
- Reduced Risk of Heart Disease
- Enhanced Energy Levels
- Greater Muscle Mass
- Improved Cardiovascular Health

Frequently Asked Questions

Our team at Advanced Age Management is available to answer any questions you may have regarding your decision to begin your therapy in-clinic or via telemedicine.

What are Low T symptoms?

Irritability, decreased sex drive, loss in muscle mass, mood swings, increased body fat, diabetes and the possible onset of heart disease are all [symptoms of low testosterone](#).

Does the Therapy Hurt?

No. The most common form of TRT is by injection and will be administered by Dr. John Kocka.

What is the Cost?
