Product 1: Knee Sleeves

Are you a fitness freak? Do you love going to the gym? Do you enjoy performing those difficult squats? Then you definitely must have experienced the pain in your knees after huge sets.

To deal with the pain, use Knee Sleeves – the best Neoprene material for Weight lifting, Cross Fit and Powerlifting. A new age product that helps you be more comfortable in your workouts.

Purpose

In recent years, the industry of knee sleeves has been growing. *Doctors and Physicians have been recommending sleeves to gym enthusiasts and regular athletes.* As over time, squats and heavy lifting can hurt your knees, it is recommended to protect this vital bone.

Knee Sleeves can soothe the patella by absorbing the pressure. The elastic neoprene material assists the movements of the patella. Rather than the weights impacting the kneecap, it will now be directed to the knee sleeve. The sleeve can absorb huge pressure of weights and can be exposed to long-term use.

So knee sleeves mode of action works in three steps:

- Absorbing pain of the weights
- Reducing pressure on patella
- Using elasticity to push the upper body up safely

Benefits

- Support for the Patella
- Promotes easy blood flow
- Works under high pressure of heavy weights
- Elastic material
- High Quality stitching of Neoprene material

We all invest in Nutrition and training programs. We do tend to ignore the fact that our body can withstand only certain amounts of pressure. Over time, excess pressure can cause injuries. For that reason, you need to buy Knee Sleeves.

Comparison with other Sleeves

It's needless to say there are many competitors in the Sleeves industry. Some claim to sell even 110% elasticity material! We believe in providing an accurate estimate of the success of the product. **Our product is 100% elastic and neoprene.** **We follow strict Quality Assurance as per Industry Standards.**

Warranty

At Knee Sleeves, we believe in making products long-lasting. To show our confidence, we have a 1-year warranty on our products. Any defects, you can get a replacement on your sleeves. We believe in safeguarding the health of our buyers. That is our priority.

Reviews

I like going to the gym. Earlier I would squat 180 lbs and would face severe pain in my knees. With the knee sleeves, I can now squat over 200 lbs. The pain is now lesser and I am more comfortable

-John (Gym Regular)

I need to squat huge weights. It's part of being an athlete. I used to take a day off every 10 days of training. After using knee sleeves, I have noticed I can go longer in my schedule and now do not need a break for at least 15 days.

-Mike (Athlete)

I do not perform many squats. My going to the gym involves cardio and some Pilates. I have noticed a severe pain in my knees over the time. I need to sit down and relax after every 10 minutes. I heard about the sleeves and purchased them. I have never been happier. I can now exercise with ease and do not tire at all!

Responses from Users

I've always wanted to gain more weight. I've always been skinny. I went to the gym and ate more protein. But working two jobs, I would eventually fall short in measuring my progress. After using GOQii Fitness Tracker, I no longer have to spend time in measuring. It does it for me!

-James, (Part-time Graphic Designer and Sales Rep)

As I am an athlete, my work revolves around the gym. I've had many apps on my iPhone and PC to measure my progress. But I would feel the accuracy of measuring would be off by about 5-6%. That is a make or break percentage as a track and field athlete. After using GOQii, I am finding my measurements closer to accurate. At times, even 100% accurate.

-Morgan (Short-Distance Runner)

I wanted to lose weight. I tried for years. I mean I gave it my all. But I could lose just 5 lbs over 3 months. I still weighed 195 lbs! After using GOQii, I lost 8 lbs in a month. I feel so happy. I can finally fit in that favourite dress of mine. Thank you so much GOQii Fitness Tracker. I recommend it to everyone.

Reviews from Users

“Convenient and Time-Saving”

I would spend a lot of time commuting just to the gym. It was a 15-mile two-way trip. I would be exhausted by just driving from work to the gym. Many times, I would skip the gym and lag behind in my goals. I would quit the gym again and again. I didn't know why. One day, a friend told me about Protoner's Home Gym. I said, what the heck, let's give it a try. It's been 20 months since I've used Protoner's Home Gym. I haven't skipped a workout. I even bought additional weights! I love this product.

-Mike (IT Professional)

“No more feeling awkward in the gym”

I am really, really skinny. I weight just 85 lbs. A lot of times, I went to the gym and would feel embarrassed. A lot of the gym users would stare at me while I failed. I felt so embarrassed that I stopped going to the gym. I fell behind in my goals. I couldn't attract many women. I decided it was enough. I came across Protoner's Home Gym and installed it in my house. I now weigh 120 lbs and look completely ripped. I even have a girlfriend now!

Reviews from Users

“Love it, made me fall in love with Yoga again”

I love Yoga. I go to the Yoga studio twice a week. I love doing Yoga. It is a passion. It really helps my mental and physical health. Earlier I use to feel some physical pain during Yoga. I would not be able to hold a pose for a long period of time. It was frustrating. I started using Clever Yoga Strap. My results have greatly improved. I take this along with my mat to the studio. I am falling in love with Yoga again!

-Marta (Mother and Yoga Studio regular)

“Sturdy & Strong Product”

I have used this while I was getting certified as a Yoga teacher. I have seen many trainers use and recommend the strap. It's a must have. I started using it too. It gives great results. I really like. After getting my certification, I have advised it to many of my clients. They enjoy it too. It's a sturdy and strong product.

Reviews

“Great product, High quality”

I like biking as an exercise. I usually went out biking in the trails for miles. But during the winter, I would have problems as the snow would not allow me to go out! I then decided I needed an indoor bike machine as my gym was too far out. I bought Sunny Health and fitness bike and it works great. I can now work out like I can outdoors. It's great!

-Jason (Biking enthusiastic)

“Really convenient to use”

I want to work out in the mornings. Specially I want to go out to bike. But having two kids, I'm busy taking care of them. I've missed so many work outs before I found out about Sunny Health & Fitness indoor bike. Now I can get on the bike as soon as I'm done with my kids. I am much fitter. This is a great product.

-Karen (Mother of two kids)

“A boon of a product, have been using it for 4 years now”

I bought this during a sale at my town festival. It's a great purchase. Sturdy, heavy duty-just what I want. I've had no problems with it. It's a must have.
