Stylish looks, no-compromise performance

HP thin-and-light tablets and notebooks

Business is always moving, and so are your employees. To keep up, they need a mobile computing device that's as versatile as your business—with the power and functionality to make short work of their workday, and the style and simplicity that modern users expect. With the right device, employees can make a great impression with clients while working easily and effectively wherever business takes them.

With HP's line of thin-and-light tablets, notebooks, and hybrids, you get all that and more. Chic, stylish designs that mean business. Powerful mobile productivity at your fingertips. Tough unibody frames built to go the distance. And information technology (IT)-ready manageability and security.

Now your employees can carry less and do more—all in one device.

Inspiring by design

Substance, meet style
Who says a business notebook can't be fashionable? We designed our thin-and-light devices to stand out in a crowd—and wow your savvy, tech-conscious clients in the process. Precision crafted with meticulous attention to detail, our notebooks, hybrids, and tablets include particulars like soft contoured edges, seamless unibody frames, and sophisticated silver and graphite finishes on select models. They're a little bit next-gen, a little bit luxury sedan. Now your employees can take care of business and look good doing it.

The workday just got a whole lot lighter
Thin is in, and our latest notebooks and tablets are more slimmed down than ever. Fusing the sleek, minimalist design that users crave with enterprise-class features, our thin-and-light devices make it easy to do business anywhere. Looking for a nimble way to respond to business demands? Choose a device that won't weigh employees down.

Get tough, rest easy
Take business to the limit with devices that go the distance. Our thin-and-light devices are built using high-performance materials like magnesium, aluminum, and Corning® Gorilla® Glass. We put HP Elite PCs through MIL-STD testing for temperature, altitude, vibration, and other environmental extremes.[1] Tough enough for warehouse work and sturdy enough for international travel—now that's computing you can count on.

HP recommends Windows.

Powerful, flexible performance

Work your way
Work seldom stays in the office these days. With our notebooks, hybrids, and tablets, your organization's road warriors can work how they want, where they want. Features like rotating displays, intuitive touchscreens, and business-level docking capabilities make our series of thin-and-light devices a true chameleon. Versatile travel companion or desktop workstation—it's in your employees' hands.
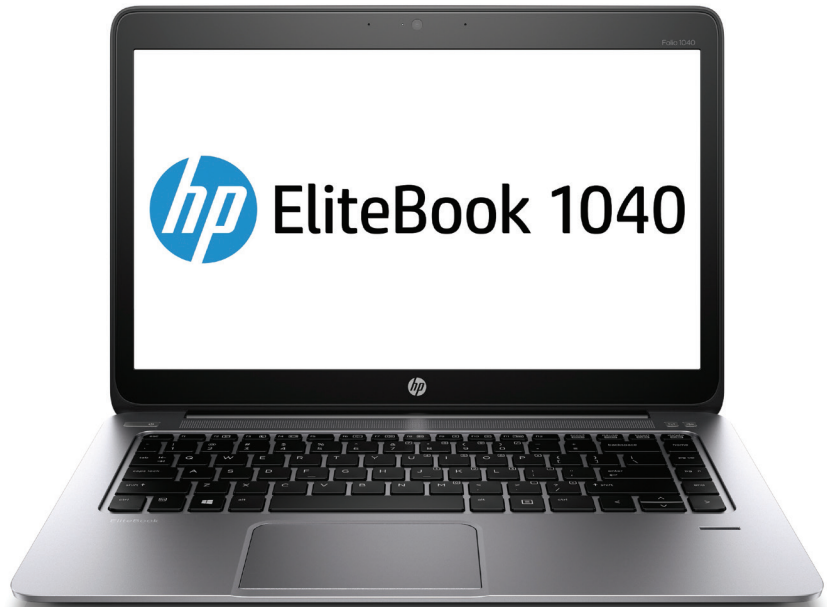

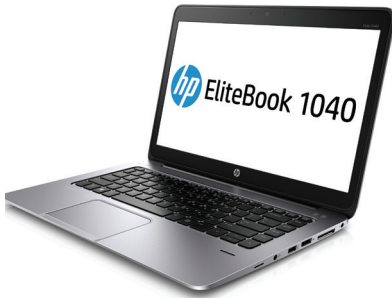

Professional to the core
Power up and get down to business. Packed with the latest power and performance technologies—including no-compromise Intel® Core™ or Intel Atom™ processors—these devices help employees knock out projects fast. And they're loaded with productivity features and tools, so employees can do their best work all day, every day.

Enterprise ready
Finally, a class of tablets and hybrids that IT can love. Our thin-and-light devices are designed to work with your existing IT environment—and provide a familiar, enterprise-class setup experience to help save time. Smart. Secure. Easy to deploy and manage. All the enterprise integration you'd expect from HP, built with mobility in mind.

HP recommends Windows.

Computing has never looked better

HP EliteBook Folio 1040 G1

Everything a business Ultrabook™ should be
When your business demands performance, the powerful HP EliteBook Folio 1040 G1 is up to the task. The elegantly designed Ultrabook is 16.1% thinner and 7.3% lighter than earlier versions,[2] keeping your employees productive from the airport to the desktop. But lightweight design doesn't mean lightweight computing. With responsive Intel Dual Core processors, docking capabilities, and robust security solutions, employees can power through their workday everywhere they go.

Productive powerhouse
Get going in seconds with a solid-state drive, and multitask without missing a beat with a fourth-generation Intel Dual Core i5 or i7 processor.[3]

ForcePad™ touchpad
Improve productivity with this game-changing touchpad system. In addition to supporting traditional touchpad gestures, the ForcePad's intuitive, button-free interface detects finger pressure, adding all new capabilities and making it easier and faster to scroll, zoom, and navigate documents and webpages.

**Docking and connectivity options**
With the optional HP 2013 UltraSlim Docking Station, you can easily connect with dual digital DisplayPorts, keyboard, mouse, additional ports, or a printer when at the office.

Security you can count on
Protect your HP EliteBook Folio 1040 from malicious or unanticipated malware attacks with HP Sure Start, part of the HP BIOSphere. HP Sure Start can restore the BIOS boot block from a clean copy stored in a separate memory that third-party software or firmware can't access.

Expand your potential

Customize your HP EliteBook Folio 1040 with these accessories (sold separately):

• HP 2013 UltraSlim Docking Station

• HPEliteBook Folio Ethernet and VGA adapter

• HP Ultra Mobile mouse

• HP Slim Ultrabook cases

• HP UltraSlim cable lock and docking station lock

• HP external USB DVD-RW drive

See a complete list of our thin-and-light accessories on page 10.

HP recommends Windows.

Expand your potential

Get the most from your HP EliteBook Revolve 810 with these accessories (sold separately):

- HP 2013 UltraSlim Docking Station
- HP DisplayPort to VGA or HDMI adapters
- HP Ultra Mobile mouse
- HP Slim Ultrabook cases
- HP UltraSlim cable lock and docking station lock
- HP external USB DVD-RW drive

See a complete list of our thin-and-light accessories on page 10.

HP EliteBook Revolve 810 G2

It's time for PCs to revolve around your business
Work doesn't always adapt to an employee's work style. So we designed an HP EliteBook that does. Our ultra-thin, full-performance HP EliteBook Revolve 810 G2 transforms from a notebook into a tablet, so employees can choose what works best in any situation. Simply rotate the display to show off presentations or projects, or fold it flat for tablet use. The adaptability doesn't end there, as the HP EliteBook Revolve 810 also connects to displays, projectors, and accessories through USB 3.0 and DisplayPort.

Touch, type, or write
Optimized for Microsoft® Windows® 8.1,[4] the HP EliteBook Revolve lets employees choose between an intuitive touch experience and traditional keyboard typing. From the sales floor to the conference room, employees can work the way that suits them best.

Built for business, built to last
With a scratch-resistant Corning Gorilla Glass 3 display, all-magnesium chassis, and spill-resistant backlit keyboard, the HP EliteBook Revolve 810 is designed to excel in the field.

Keep up with the speed of business
Power through complex business tasks and automatically sync your cloud content while your system sleeps with the latest fourth-generation Intel Core i3/i5/i7 ULT processor[3] and Intel Smart Connect Technology.[5]

Stop BIOS attacks in their tracks
HP Client Security software keeps your business data safe everywhere employees go. IT managers can easily encrypt hard drives, permanently delete unwanted or discarded data,[6] and more.

HP recommends Windows.

Expand your potential

Get the most from your HP Spectre
13 Pro with these accessories (sold
separately):

- HP Slim Ultrabook cases
- HP X4000 Bluetooth® mouse
- HP 3005pr USB 3.0 port replicator
- HP external USB DVD-RW drive

See a complete list of our thin-and-light
accessories on page 10.

HP Spectre 13 Pro

Embrace the artist within
Engineering meets artistry with our HP Spectre 13 Pro Ultrabook. At 15 mm thin and 3.3
pounds, the notebook packs engaging multimedia performance into a stylish, lightweight
chassis—making it great for digital creativity and productivity alike. The all-aluminum
construction houses high-speed hardware, a backlit keyboard, and a high-definition (HD)
touchscreen that enhances the Windows 8.1 experience.[4] And with up to 9 hours of battery
life, you can create, stay in touch, and entertain without having to recharge.[7]

Take HD up a notch
Bring out the finer points in designs and presentations with the latest in HD viewing.[8]
Everything on the ultra-resolution, 13.3-inch diagonal 1920 x 1080 Full HD display comes at
you in vibrant, lifelike detail.

Get on the fast track
Meet the lightning-fast hard drive that can keep up with every business demand. Quick and
efficient, the solid-state drive helps employees work through tasks without stops or stalls.

Windows 8.1
Start up in an instant, quickly switch between apps, and manage files easier with the quick and
fluid Windows 8.1. Now you can do more—faster than ever.

Help secure critical data
Secure data, email, and user credentials with the embedded Trusted Platform Module 1.2 and
hardware-based encryption keys.

HP recommends Windows.

Expand your potential

Get the most from your HP ElitePad 900 with these accessories (sold separately):

- HP ElitePad Productivity Jacket
- HP ElitePad Security Jacket
- HP ElitePad Expansion Jacket and Jacket Battery
- HP ElitePad Docking Station
- HP Multi-Tablet Charging Module
- HP ElitePad case
- HP X4000b Bluetooth mouse
- HP Slim Bluetooth keyboard
- HP ElitePad adapters

HP ElitePad 900 G1

This tablet means business
Go beyond everyday business with the HP ElitePad 900 G1. Powered by the latest Intel Atom processor, our premium thin-and-light Windows 8 tablet[9] puts productivity at your employees' fingertips—and transforms your perceptions of what a tablet can be. The HP ElitePad 900 is all business, with enterprise-class security and a design that's fully serviceable and easy to deploy and manage. And with optional accessories like an HP Expansion Jacket and Jacket Battery,[10] you can get a combined battery life of up to 20 hours.[11] Finally, a tablet that works as hard as your business does.

Sleek and elegant
Contoured edges, an anti-smudge screen, and aluminum buttons make the HP ElitePad 900 look and feel as great as it functions. Inspire employees with a design that excites.

Touch
Conduct business like never before. Set off winning presentations with a single touch, or immerse your clients in an intuitive, touch-enabled experience that simplifies transactions and other business tasks.

Bring telepresence to life
Use the 1080p front camera for video meetings, and come off looking your best. Capture 8 megapixels of vivid detail in photos or videos with the HP ElitePad 900's rear camera.

A total business solution
Add a full keyboard to boost productivity. Dock at the office and it becomes a desktop PC—or add an additional screen for multitasking. Integrate tablets with a full suite of IT-friendly features and empower employees to work right away.

HP ElitePad accessories

Help your HP ElitePad excel in business environments with these thoughtfully designed accessories.[10]

HP ElitePad Productivity Jacket
Boost your productivity with a keyboard, connectivity ports, SD card reader, and an adjustable stand, all in one. Enjoy notebook capabilities in a tablet.

HP ElitePad Security Jacket
With integrated smart card and fingerprint readers, the HP ElitePad Security Jacket prevents unauthorized access to your device or network.

HP ElitePad Expansion Jacket and Jacket Battery
Get the connectivity you need with the HP ElitePad Expansion Jacket's USB 2.0, HDMI, and microSD ports. Power through the workday with more battery life by adding the HP ElitePad Jacket Battery.

HP ElitePad Docking Station
Charge your HP ElitePad at your desk and set it up as a secondary screen for enhanced productivity.

HP Multi-Tablet Charging Module
Store and charge up to 10 different devices all at once. Stack up to two modules to charge even more.

HP ElitePad case
Tote your HP ElitePad in a stylish, executive-style case that doubles as a stand. Includes elastic penholder.

HP X4000b Bluetooth mouse
No USB port, no problem. This Bluetooth mouse is compact and cordless, and features a cool, comfortable shape.

HP Slim Bluetooth keyboard
Make your HP ElitePad even more business-friendly with this slim, wireless Bluetooth keyboard.

HP ElitePad adapters
These easy-to-use HP adapters let you connect a wide range of external devices to your HP ElitePad. Choose the type of cable—VGA, HDMI, Ethernet, or USB—and AC power supply to meet your needs.

HP thin-and-light accessories

More choice equals more productivity. Our suite of thin-and-light accessories gives you the freedom to customize your devices your way—and better meet your business's day-to-day needs.[10]

HP 2013 UltraSlim Docking Station

Expand display, network, and device connectivity—all through a simple slide-in dock. Includes a DisplayPort, VGA port, and four USB 3.0 ports.

HP Ultra Mobile mouse

Easily navigate business docs with either hand—and without cords—with the thin, power smart HP Ultra Mobile mouse.

HP X4000b Bluetooth mouse

No USB port, no problem. This Bluetooth mouse is compact and cordless, and features a cool, comfortable shape.

HP Slim Ultrabook cases

Travel light while shielding your Ultrabook from bumps, dents, and scratches with these snug-fitting notebook cases.

HP UltraSlim cable lock and docking station lock

Keep your docking station and notebook from falling into the wrong hands with this ultra-tough cable lock.

HP external USB DVD-RW drive

Back up or access files wherever business takes you. Housed in a sleek aluminum casing, this external DVD-RW drive is USB 2.0-compatible.

HP 3005pr USB 3.0 port replicator

Turn your notebook into a highly compatible workstation with two USB 3.0 ports, four USB 2.0 ports, and Gigabit Ethernet.

HP EliteBook Folio Ethernet and VGA adapter

Connect additional devices to your Ultrabook. This handy adapter plugs into your docking connector and includes both Ethernet and VGA ports.

HP DisplayPort to VGA or HDMI adapters

Hook up a VGA or HDMI monitor to your Ultrabook's DisplayPort connector with an adapter cable.

HP recommends Windows.

Enterprise-class experience

Stay secure without a second thought
Rest assured, HP thin-and-light devices protect your data from the ground up—and help reduce time spent on IT tasks. Solutions like HP Sure Start[12] and HP BIOS Protection[13] keep viruses and malware at bay. HP Client Security[14] suite helps your IT team encrypt hard drives, permanently delete unwanted data, restrict unauthorized access, and more. And with optional add-ons like Absolute Computrace,[15] IT managers can remotely manage and secure PCs and mobile devices to help enact and enforce IT policies.

IT management made easy
Ditch the stress. Set up and deploy thin-and-light devices using familiar management tools, plus services and protection that take the headache away from IT. HP Global Services and HP Custom Integration Services make it easy to deploy the HP products across a worldwide enterprise. And with x86 compatibility and support for HP Client Management Solutions, ongoing device management is easier than ever.

Exceptional reliability—to keep business moving
There's no time to waste at work. That's why our business PCs are tough and tested. All of our Elite Business PCs meet MIL-STD 810G testing for drops, vibration, functional shock, dust, altitude, and high and low temperatures. We add another 115,000 hours of our own testing and end-to-end diagnostics to all Elite and Pro Business PCs, so you can have confidence built right in.

Elite service and support
Reduce IT glitches and downtime on Elite PCs with HP's industry-leading service and support. HP offers a range of extended service contracts, including HP Care Pack Services, to meet the needs of business-critical IT environments. And you can get immediate answers to everyday support questions with features like HP Support Assistant—a self-help tool built right into many HP PCs.

Master mobility with HP

Whether your employees are in the office or on the go, HP's thin-and-light notebooks, hybrids, and tablets make it easy to work hard. Superior performance. Beautiful design. Great value. Simplify the way you do business with HP.

1   Testing was not intended to demonstrate fitness for U.S. Department of Defense contract requirements or for military use. Test results are not a guarantee of future performance under these test conditions.

2   The EliteBook Folio 1040 G1 is 16.1% thinner and 7.3% lighter than the previous HP EliteBook Folio.

3   Multi-core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. 64-bit computing on Intel® architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers, and applications enabled for Intel 64 architecture. Processors will not operate (including 32-bit operation) without an Intel 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. Intel's numbering is not a measurement of higher performance.

4   Not all features are available in all editions of Microsoft® Windows® 8.1. Systems may require upgraded and/or separately purchased hardware, drivers, and/or software to take full advantage of Windows 8.1 functionality. See microsoft.com.

5   Intel Smart Connect Technology requires a select Intel processor, Intel software and BIOS update, Intel wireless adapter, and Internet connectivity. Solid-state memory or drive equivalent may be required. Depending on system configuration, your results may vary. Contact your system manufacturer for more information.

6   Requires Microsoft Windows.

7   Battery life will vary depending on numerous factors including product model, configuration, loaded applications, features, use, wireless functionality, and power-management settings. The maximum capacity of the battery will naturally decrease with time and usage. See http://bapco.com for additional details.

8   High-definition (HD) content is required to view high-definition images.

9   This system is Windows 8 certified and supports the new Windows UI. The integrated display resolution is below the threshold for Snap, a Windows UI feature that allows two Windows Store apps to be viewed simultaneously. This feature may be enabled by attaching an external 1366 x 768 or higher-resolution display. Not all features are available in all editions of Windows 8. Systems may require upgraded and/or separately purchased hardware, drivers, and/or software to take full advantage of Windows 8 functionality. See microsoft.com.

10   Sold separately or as an optional feature. Check accessory compatibility.

11   Testing conducted by HP consisting of full battery discharge while running a series of productivity scripts against the following applications (which may or may not be included with your particular product): Adobe® Acrobat®Reader® 7.0, Adobe Illustrator® CS2, Adobe Photoshop® CS2, Apple Quicktime 7.1, InterVideo® WinDVD 8, Macromedia® Flash 8, Microsoft Office 2003 Pro, Microsoft Project 2003, and Winzip 10.0. Prior to testing, the system was fully charged, display brightness was set at 60 nits, wireless was turned off, and auto dim, suspend, hibernate and all other programs, utilities, and services not essential to running the computer system or battery life test were disabled. Battery life will vary depending on the product model, configuration, loaded applications, features, use, wireless functionality and power management settings. The maximum capacity of the battery will naturally decrease with time and usage. See http://bapco.com for additional details.

12   HP Sure Start is only available on the EliteBook 800 series, Workstation ZBook series, and HP EliteBook Folio 1040.

13   HP BIOSphere features may vary depending on the PC platform and configuration.

14   Requires Windows. Data is protected prior to Drive Encryption login. Turning the PC off or into hibernate logs out of Drive Encryption and prevents data access. Designed for the use cases outlined in the DOD 5220.22-M supplement. Does not support solid-state drives (SSDs). Requires HP Disk Sanitizer, External Edition for Business Desktops from hp.com. Initial setup required. Web history deleted only in Internet Explorer® (IE) and Mozilla® Firefox® browsers and must be user enabled. With Windows 8.1, user must turn off Enhanced Protection Mode in IE11 for "shred on browser close" feature.

15   Computrace agent is shipped turned off, and is activated with customer purchase of a subscription. Service may be limited. Check with Absolute for availability outside the United States. The optional subscription service of Absolute Recovery Guarantee is a limited warranty. Certain conditions apply. For full details visit absolute.com/company/legal/agreements/computrace-agreement. If Data Delete is used, the Recovery Guarantee payment is null and void. In order to use the Data Delete service, customers must first sign a Pre-Authorization Agreement and either create a personal identification number (PIN) or purchase one or more RSA SecurID tokens from Absolute Software.
