

## ***School Safety and Security Funds are currently available!***

***Did you know there are \$150 million dollars in the School Safety and Security Fund available to 779 eligible school entities?***

The funding supports COVID-19 Disaster Emergency School Health and Safety Grants for the 2020-2021 school year.

The **Sentinel Responder**, a new solution from In-Synch Systems, provides tools to help protect the well-being of the community in response to COVID-19.

***This independent solution is tailored for schools and school districts to design and implement community safety policies, monitor and log information in the health tracker, conduct safe access monitoring in real-time, manage infection concerns, follow COVID positive tests, and trace contacts.***

In-Synch Systems is a Zelienople, Pennsylvania based company built around keeping our community safe. For over 20 years, we've been at the forefront of community welfare working with public safety and private security.

**Together, we can ensure the safety of the next generation.**

If you're looking for a solution to safely welcome your students and staff back for instruction this fall while maintaining new operational requirements, [check out our website](#) or download more information about the Sentinel Responder product suite below.
