

PHOTOLEMUR

Hello Marc

Thank you for helping us beta test Photolemur photo enhancement software. Your input has been invaluable as we've worked to launch the release version.

PREORDER NOW & SAVE \$50

The beta test version of Photolemur you've been using will no longer work as of January 1, 2017. After that date, you'll receive a message to update your software for US \$49.00. However, if you preorder by December 15, you can take advantage of our special introductory price of just US \$30.

You'll also receive a free gift, a license for Lensflare Studio software. Lensflare Studio lets you add over 100 special effects to your photos, including lights, flares, glows and more!

The new, paid version of Photolemur includes some critical improvements, including:

**Face Recognition
& Enhancement**

**Improved RAW
Processing**

**Batch Processing
of Up to 40 Photos**

We hope you'll take advantage of this special offer during the preorder period (through December 15).
