## SEEMA SYED TRAINING ACADEMY

Essential make-up techniques that every professional should know

**W**hether you're looking to start your own business or are keen to brush up on skills, Seema Syed's students have gone on to big things which is not surprising when they have been taught by one of the industry's most important MUAS.

Seema Syed's wealth of experience (spanning over 15 years), including working on numerous fashion shoots for *Asiana Wedding Magazine* will equip you with everything you need to know.

Seema's 5-day intense course runs throughout the year and is based in Wembley. The course begins with a two-hour introduction where Seema guides you through basic beauty knowledge then moves onto practical exercises where students can learn tips and tricks for make-up application including air-brush foundation. Seema also places emphasis on how to work with clients of your own. Aside from the business aspect Seema also undertakes one-to-one sessions, teaching

Outfit: Debenhams • Necklace/Earrings: Jawhara Jewellery by Nida Tabani • Ring: Nargis Collections

women self-grooming techniques showing them how to recreate their wedding look.

### SEEMA SAYS:

'I believe it's only after you've mastered beauty on yourself that you can truly apply make-up on someone else so self-grooming is an important part of the course. I also allow students to shadow me when I work on real brides so they can see how it's done as well as have an opportunity to assist me.'

**TESTIMONIAL:**  
'Seema takes a personal approach to her courses. I particularly enjoyed learning how to apply airbrush foundation'
