DO

Hike Manoa Falls Trail

Scenic nature adventure meets pop culture as you hike Manoa Falls, walking the same route as movie crews who filmed the location for productions like Lost and Jurassic Park. During your short trek, you'll be surrounded by rainforest and tropical bamboo. The hike's ultimate destination is its awe-inspiring, 150-foot waterfall, which flows down the mountain into a small pool.

Hit the Waves/Learn to Surf

Oahu is a dream-come-true for expert wave-riders and the perfect location for those who've never surfed. Waikiki beach is lined with seaside booths run by expert surfers who make a living helping others catch their first wave. Surf schools can also be found on various other areas of the island. Get ready for an adrenaline-filled, oceanview workout.

Experience the Art Walk in Chinatown

Booming in Hawaii for centuries, the arts are a respect and integral part of the culture. On the art walk you'll discover everything from hand-crafted artifacts to modern arts and meet contemporary artists who infuse local traditions into their work. Notable galleries include The Pegge Hopper Gallery, The Ramsay Museum and Arts at Marks Garage.
