

Mammograms Save Moms

At Centura Health, we know how much mothers matter. It’s why we screen them with 3D mammography and utilize dedicated breast radiologists.

Marva Amerine, a wife and mother of a two-year-old boy, chose to have a double mastectomy when her mammogram detected breast cancer. **“I have my husband and my son, and a lot of years left here and a lot of impact that I want to make in the world and his world,”** said Marva. **“I thank God each day that the mammogram did its job.”**
