## FOOD FOR THOUGHT

Bring about an important change in attitude to food waste in 2009

Every day in the UK we bin 2.8million tomatoes! Sky and its charity partner Global Action Plan have launched Appetite for Action to help kids in primary schools understand the link between the environment and the food we throw away. Participating schools have the chance to win £3,000 plus a visit from members of the Sky News team. For more info and to sign up your school, go to [appetiteforaction.org.uk](http://appetiteforaction.org.uk).

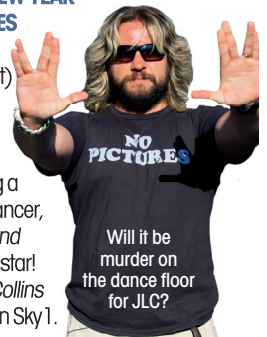

Help kids to learn about the impact of food waste on the environment
