

We see you, small business owner. You're looking for a way to safely gather and engage customers during these difficult times. Nothing brings us together more than the power of a well-told story, and no story form is more accessible than film. If you've got the space, we've got the answer. License a film for public exhibition at your store, restaurant, or boutique. Space customers safely, according to CDC recommendations, or make it a drive-in screening in your parking lot. The process is simple, and the results lift us all.

- 1** Create an account.
- 2** Select a film.
- 3** Purchase a license.
- 4** Host your screening.
