## ATTENDEE GUIDE TO THE TOP APPS FOR A PRECISION-ENGINEERED CONFERENCE

LAYHER

### Fast

Many conferences now use **Guidebook** to streamline communication to attendees. Check conference apps often to find out about schedule changes as they happen.

### Versatile

Just gave out your last business card? **Beezcard** sends your business card electronically so you never run out again (plus, they're easier to find when you need them).

### Safer

With **tile**, you'll keep track of your luggage, wallet, keys, and more. These key ring size sensors send a signal to your phone so you always know where they are. Visit [thetileapp.com](http://thetileapp.com) for more.

### Profitable

Save time inputting contacts with **CamCard**, the app that fills in contact information from collected business cards into a database with a quick photo.

Increase your productivity. Layher Precision Scaffolding.
