ABOUT SAGE

Founded in 1998, Sage Environmental Consulting provides a full range of environmental services to meet your permitting and compliance needs. We serve clients in upstream and midstream oil & gas, petrochemical, chemical, pulp & paper, energy, iron & steel, and mining sectors to name a few—if you are subject to regulation, we have an expert for you.

POWER & ENERGY SERVICES

Whether you're in need of site screening and fatal flaws analysis at project inception, permitting and licensing as the first solid step forward, construction compliance to realize your facility, or environmental, health, and safety auditing during operations to ensure that all is running according to plan, we are available to meet your power & energy facility needs.

FROM PLANT START TO FINISH:

- *Due Diligence – Fatal flaws analysis*
- *Permitting/Licensing – Impacts assessment and development of mitigation measures*
- *Construction Compliance – Planning, monitoring, reporting*
- *Operations Compliance – Auditing, reporting*
- *Community Considerations – Promotion of project benefits and public outreach*

WE WORK BESIDE:

- *Project Owners*
- *Legal Counsel*
- *Permitting Agencies*
- *Licensing Agencies*
- *Engineering Procurement And Construction Contractors*

YOUR ONE-STOP SHOP**SAGE. CONNECTS. THE DOTS.**

We offer a comprehensive list of environmental impact services to meet your natural gas and renewable facility needs. We pull it all together, hand picking the best resources for the job—local teaming partners with subject matter expertise to ensure the highest quality products.

WITH A RANGE OF IMPACT ASSESSMENT SERVICES...

- *Air Quality Permitting*
- *Land Use Compatibility*
- *Biological Resource*
- *Endangered Species and Wetlands Surveys*
- *Cultural and Paleontological Resources*
- *Noise and Traffic*
- *Geologic Hazards*
- *Hazardous Materials and Waste Management*
- *Water Quality, Resources, and Permitting*
- *Wastewater Management and Permitting*
- *Visual Resources*
- *Environmental Justice*

AND AN EXPERT FOR EVERY NEED.

- *Air Quality Experts*
- *Biologists*
- *Water and Wastewater Experts*
- *Archaeologists and Paleontologists*
- *Traffic Engineers*
- *Noise Engineers*
- *Environmental, Health, and Safety Specialists*

MEET THE TEAM

Our resident experts Maggie Fitzgerald and Amanda Johnson have spent a cumulative 20 years investing in natural gas & renewable facility skills and connections to benefit you. They understand what it takes to get the job done, how to avoid the often unforeseen constraints that cost others time and money, and how to leverage tested resources to your benefit.

MAGGIE FITZGERALD has more than 25 years of experience in the environmental engineering field. Her expertise includes power sector environmental permitting/licensing; site characterization and remediation; environmental engineering; and agency negotiations. Maggie is particularly adept at the logistics of program and project management for large, complex and multi-disciplined projects.

AMANDA JOHNSON has over 13 years of environmental planning experience that includes serving as assistant project manager and compliance manager for large scale power projects. Her responsibilities have included overseeing, preparing, and reviewing power project documents, including Applications for Certification, Data Adequacy Responses, and Data Request Responses, associated environmental technical studies, and compliance management and reporting.
