"I love the design process. Placing and replacing different designs until I'm happy with the final pattern takes hours and is so much fun. My absolute favorite part, though, is adding finish to the final product and seeing all of the grain come to life beneath the different finishes. My Patriarchy Portrait illustration and my Sunburst Mosaic are my favorites—I never tire of looking at them."

That's what we're really into; it's not just going through the motions of making something, it's experiencing each step of the process, both as an effort to improve your skills and to just zone out."

"Creating an intricate wall hanging often starts at my sketchbook. Once I have a design, I spend hours or days just tying knots. Finally, I meticulously trim until each piece is complete. My favorite part is stepping back to see the piece right before the final trim. I love seeing how a sketch can evolve into something completely new as I progress."

ECO-FRIENDLY

This Footwear Brand Is Helping People Take a Step Towards Sustainability

Eli Marmar and Martin Kim, co-founders of Freewaters, have designed eco-friendly footwear for all seasons—sandals, shoes, boots and house slippers included. “Sandals continue to be our biggest category, and we offer everything from classic leather styles to adventure sandals and slides,” says Marmar. But footwear is not all they are planning and designing. Every pair sold from the day they started has helped support clean drinking water projects. “To date, we have completed 85 projects in Haiti, Kenya and the Philippines in partnership with our grassroots partners Framewrx, UntilThen and Primer Group,” says Marmar.

Aside from their clean water projects, Freewaters also makes sure their products are sustainable and eco-

friendly. “From our beginning, we have insisted on water-based glues and PVC-free rubber,” says Marmar. They also introduced responsibly sourced leather, as leather tanning has generally been a very water- and chemical-intensive process. “We partnered with an award-winning tannery where 100% of the water used is naturally purified by on-site wetlands,” Marmar says.

The duo describe their footwear as being for “global citizens,” meaning people who want to explore new places and connect with different people and cultures. “Being a global citizen is different than being a tourist,” explains Marmar. “It’s about being authentically interested in and aware of how other people live and wanting to be a part of the solution to the struggles they may be facing.”

Nestled in the idyllic waterfront town of lovely Laguna Beach is a quaint boutique that illustrates the perfect combination of relaxed beach vibes concentrated with grandiose elegance, both in appearance and products.

Laguna Supply—a name born from the clever idea to keep prudent partners off the trail of accumulating credit card statements from a “supply” shop—is the haven of fashion-forward apparel, complementary accessories and all sorts of cute knick knacks.

“We sell clothing, accessories and jewelry that are sourced from brands that range from tried-and-true to up-and-coming,” explains Laura Hart, retail owner and LS pioneer.

Since opening their bright yellow doors in 2008, Laguna Supply has been keeping locals and traveling wayfarers chic for over a decade. “My

business partner at the time and I wanted to own a business in the city that we lived in,” states Hart, also a Laguna Beach resident.

With a successful following, carrying brands from Isabel Marant Etoile to Citizens of Humanity, Hart eventually made the decision to open another shop in Corona del Mar—a decision that was thoughtfully inspired to bring her fabulous fashions closer to her other beach city neighbors. “CDM came about because we knew a lot of people that lived in the Newport Beach area,” says Hart.

To add to its unique charm, Hart works on-site, as she enjoys interacting with all of her clientele. “I love working with customers,” she buoyantly states. A store built in the community for the community, it can certainly be said that Laguna Supply is a must-stop shop with a lot of “Hart.”

NEW YOU

Steam, Scrub and Soak Your Worries Away

If you've considered getting a Brazilian Blowout, a Brazilian wax or a Brazilian manicure, this Newport Beach salon should be your next stop.

Brazilian bombshell Andrea Orsi is a third-generation hairstylist who started doing hair as a 14-year-old in one of the four salons her mother owned in Brazil. Less than a year ago, she opened Andrea Orsi Beauty Lounge in Newport Beach where she employs a staff of hairstylists, manicurists and estheticians, all of whom carry Brazilian roots.

"We offer everything for hair," says Orsi. "We do facials, skin treatments and body treatments. We also do massages." The most popular treatment at Orsi's salon—and her personal favorite—is the Kerastase Fusio Dose booster, which she says transforms hair completely.

She carries her own organic hair line, aptly named Andrea Orsi. "It's fabricated in California, so it's for our weather and type of water," Orsi explains. "It works really well for those of us who live here." Another product Orsi sells and swears by is the Jan Marini Skin Care Management System, which was named NewBeauty Magazine's best anti-aging system for nine-straight years. "We want to make sure that if we're going to bring in something, it's been proven to be good."

Orsi says, "For us, it's truly important that you love what we do. We want to make sure that when you're paying that you're going to reschedule because you truly had a great and fun experience. What's more fun than getting good service for a good price?"

YOGI FAVES

Juliet Pham
 Retail Specialist and Assistant Buyer, Ra Yoga

For a true yogi, your practice is more than a workout—it's a holistic experience. "Yoga...is able to resonate with people from all walks of life," explains Ra Yoga's Retail Specialist and Assistant Buyer, Juliet Pham. "The journey of your yoga practice is parallel to your life journey." And just like any other journey, you're going to need the right gear. Here are Pham's top picks for her practice. Namaste!

- "I love my Jade Elite mat because of its eco-friendly nature. It's biodegradable, made from natural tree rubber and for every mat sold, Jade will plant a tree. Plus, it's an open-cell mat, essentially creating traction for a comfortable practice without slippage." www.jadeyoga.com
- "Nomadix towels are great to help soak up sweat, create an additional layer of protection for your mat and can add traction for those extra sweaty yoga classes!" www.nomadix.co
- "My Hydro Flask is a must-have for yoga and daily life! It keeps your water cold, and for hotter classes, I fill mine up with ice so it stays even colder." www.hydroflask.com
- "I cannot live without my Beyond Yoga Spacedye Leggings. Not only is the texture buttery soft, but I can rock them all day—in and out of the studio!" www.beyondyoga.com
- "The Girlfriend Collective Topanga Bra is the perfect combination of stylish chic and practicality for your yoga practice!" www.girlfriend.com

Lights Out, It's Time for Bed

> Ah, the best time of the day. Take off those stiff workday clothes and jump into something comfy and cozy. Dim your lights, pour a cup of tea and forget all the worries of the day. It's what you've been waiting for since you woke up—that's right—it's bedtime.
