

Notes For Our Patients

Post ScRipt

November 2017

The holiday season is a time when we're reminded of all for which we are grateful. And in 2017, Apothecary By Design has many reasons to say "thank you."

The reasons are all around us as we work each day. The individual members of our team are sources of energy, wisdom, camaraderie, and often laughter. We're gratified by the trust that physicians, other professionals, and patients place in ABD. And patients, like you, are a daily inspiration, the reason why the work we do *matters*.

As 2018 approaches, please know that we are thankful to be providing your pharmacy care, and our commitment to your well-being remains steadfast.

Our best wishes to you and those you love.
