1 Flights 2 Passengers 3 Options 4 **Seat Selection** 5 Payment

Choose your seats now and you will save 20% compared to after booking.

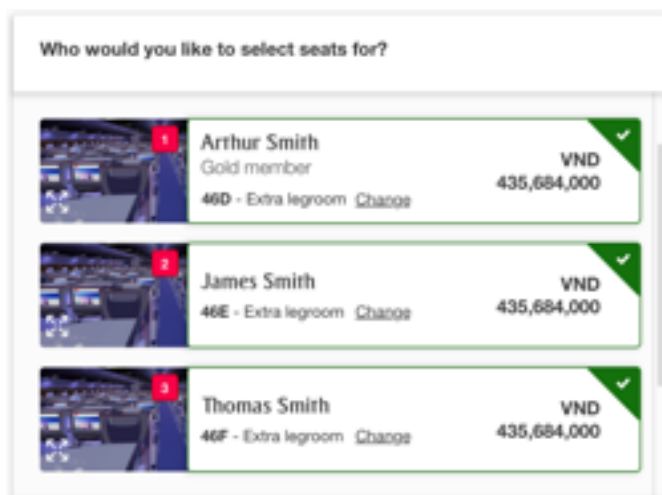

My Booking/Booking Details/My Booking Details

Select your seats now, and benefit from 20% savings compared to after booking.

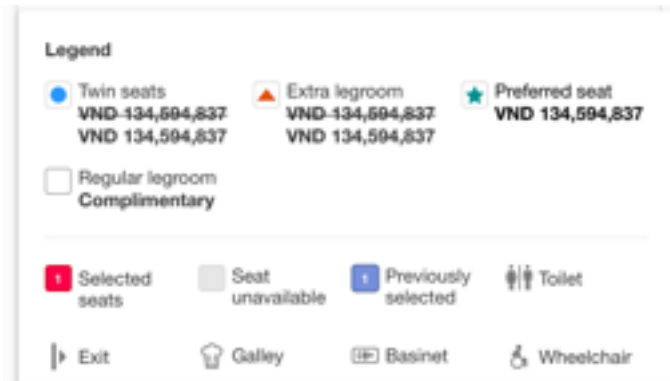

(lots of questions online/on quora posted by people searching the difference between upper and lower deck, advantages of one or the other etc. - could we include a tooltip/ some copy about the difference?)

(Unfortunately/Please note, we can't accommodate wheelchair access in the upper deck.)

~~Who would you like to select seats for~~
Customize your aircraft seat preferences
Add seat selections for each passenger.

Legend Seat selection guide

(What does Preferred Seat mean?)

(Can we have a hover tooltip beside Extra Legroom, and maybe Twin seats, to give more info/context? And can Regular Legroom be the first type?)

Regular legroom-Standard seat

Twin Seats

Extra legroom

Preferred Seat (can we change this label, what is a preferred seat? Popular seat? Why is it popular/preferred)

Selected

Unavailable

Previously selected - what does this mean?

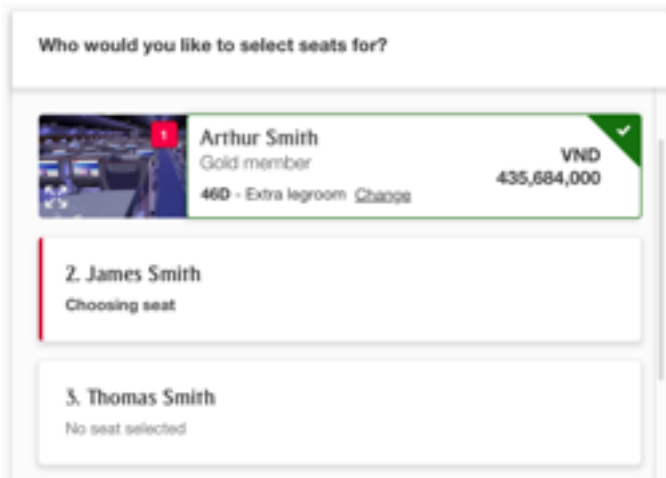

Total Cost (incl. seat selection)

VND xxxxx

Customize your aircraft seat preferences

Add seat selections for each passenger.

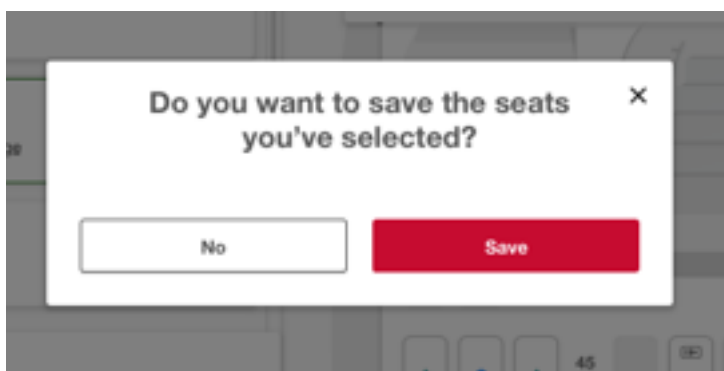

James Smith (do we need the 1. ?)

Instead of "Choosing seat," I think this should be,

"You haven't selected your seat yet. Choose from the options on the aircraft map."

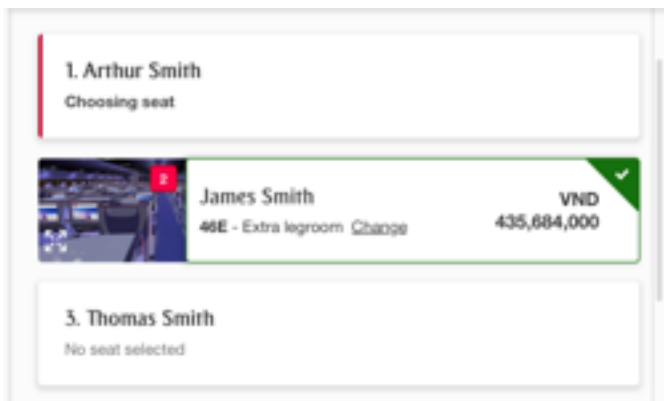

Or

"No seat selected. Select your preferred seat on the aircraft map."

Have you finished selecting seats for all of your flights?

[No, continue editing] [Yes, proceed to payment]

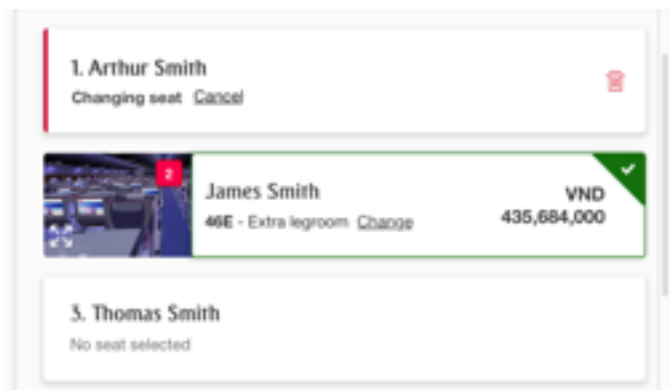

Arthur Smith

“You haven’t selected your seat yet. Choose from the options on the aircraft map.”

Or

“No seat selected. Select your seat from the options on the aircraft map.”

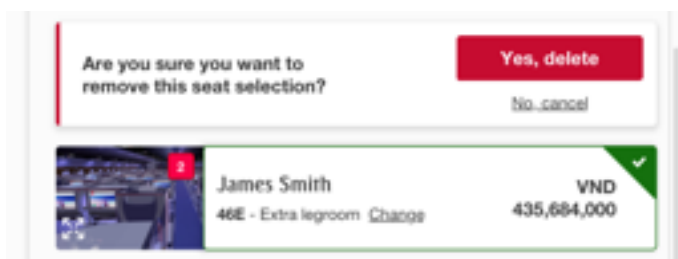

With the bin icon, I feel like I’m about to delete the whole passenger from the booking, not the seat selection. Maybe copy that says, “Clear seat selection,” that changes the card to back to “No seat selected. Select your seat from the options on the aircraft map.” Or copy underneath the bin, “Remove seat selection,” / “Clear seat selection.”

~~Changing seat~~ Change your seat by selecting another option on the aircraft map.

Save Changes

Remove this seat selection?

[Yes, remove]

No, keep my seat selection
