Section 1: Tell what you do

Business Financing, without the need for US Credit History.

Contact Us

Section 2: What is it?

Business credit cards to fund your company and centralize startup operations, without the need for previous US credit.

Sakura provides access to credit card financing for small business owners, who have good credit history in their own country, but are yet to build credit in the US.

Section 3: Benefits and solutions?

Access to credit card financing

Starting a new business involves investments and costs. Sakura provides you with credit card financing, without the need to apply through a bank.

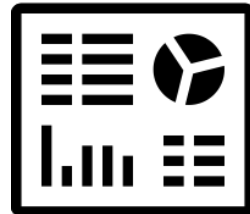

No need for US credit

Modern financial services look for proof of credit history in the US. Sakura bypasses this, and relies on a simple credit check from your country of origin.

Centralize your startup operations

From administration to accounting, Sakura's software allows new businesses to centralize and accelerate their startup operations on a single dashboard.

Increased efficiency

Sakura's simple sign-up process eliminates stress, confusion, and extra paperwork, while giving every small business owner full control and autonomy over their startup process.

Transparent and Verified

We want every business to have access to equal startup resources and opportunities. Our our process is transparent and reliable at every step of the way.

Section 4: Appeal to their main pain point

Don't let startup costs stand in the way of launching your business.

Our products are allowing small business owners from outside the US to launch new companies all over the country. We believe that good credit history should be transferable, and are dedicated to helping you turn innovative ideas into reality.

Section 5: Start application or contact for more details

Kick-start your business in the US, and fill out an application for your own business credit card today.

Starting your application is simple - we'll ask you for some bank account details and information about your business, before carrying out a credit check in your home country. We notify you of your approval within 1 - 2 days, before sending the business card directly to your address.
