

## Welcome To Akai Life!

Welcome to Akai Life's blog space! This is where you will find pertinent information related to our line of products and topics pertaining to your health and wellbeing, as well testimonials and stories from our customers who benefit from Akai Life's line of products.

It may seem strange to you that we in no way, shape or form provide detailed descriptions, recommendations or promotion of Akai Life's line of dietary supplements, tinctures and topical creams and balms. In compliance with the US Food and Drug Administration, producers of CBD products are strictly prohibited from making any health claims, or providing details about what conditions our supplements may affect. We are wholly forbidden to discuss disease or the treatment of disease.

Required compliance with FDA regulations is not due to the fact that our products are formulated with hemp extract (that is 100% Farm Bill Compliant and non-GMO), rather it's because hemp extract is classified as a dietary food supplement. In order to accord ourselves with the laws that govern distribution of a dietary supplement, we are forbidden to discuss the possible benefits of our products.

Trespassing these rules leads to severe penalties. In order to continue to provide our customers with our product, we must avoid any conversation concerning specific health topics. Regardless of all the years' of medical research on the subject of cannabinoids, the FDA will crack down with massive fines if we offer any specifics as to how our CBD extract may affect your health.

This is where we need your help. We need you to do your own research. A great place to start is [www.projectcbd.com](http://www.projectcbd.com). We need our customers to be our voice in discussing your personal experience with Akai Life's spectrum of product. We need you to share your stories, and answer other people's questions about the way our products have affected your journey.

Share your personal story, as we are intrigued. We are dependent upon you for spreading the word about the benefits you've experienced in using Akai Life's line. We are extremely grateful for your contributions and comments on this blog and other forms of social media. Your experiences on your

personal path to health and wellbeing are extremely import to others on their own journey towards bliss.

With sincere thanks,

Akai Life
