

# Save money on hospital and outpatient surgery costs

A PPO Tiered Network plan offers all the freedom of a PPO, plus more ways to save.

With a Personal Choice® PPO Tiered Network plan, you get the same freedom and flexibility of a PPO, plus more ways to save on care. We grouped our PPO hospitals and facility providers into two tiers, based on cost and quality measures. While all of the hospitals in our network must meet the same quality standards, some are able to offer the same services at a lower cost.

You save the most money by visiting providers in tier 1 for hospital and outpatient surgery services, but you always have the choice to visit tier 2 or out-of-network providers. Review your benefits summary to see what hospital and outpatient surgery services allow for savings.

**Find out what tier your providers are in**
