

Happy Birthday, YOR Health! Another year has flown by as May 5, 2017 marks our ninth anniversary. Since we opened our doors in 2008, YOR Health has experienced incredible transformation and we are excited about what lies ahead.

One year ago, we had plans to move further into the organic market, and we accomplished this goal:

We made the impossible possible and launched our **Bare Living** body care line. Powered by our Bare Oils, these products are luxurious, safe, made with synthetic-free ingredients, and second-to-none in the market of natural body care products.

We also developed our **GREAT•ful** line of products, which are plant-based, gluten-free, non-GMO, and vegan-friendly protein and superfood mixes designed to help complement a natural, healthy lifestyle.

The addition of these lines propelled us to develop the Live Bare Movement, which is about encouraging others to rid themselves of harmful toxins and experience our vision of what true health really is.

We are known to have some of the best nutritional supplements and essential oils in our industry, and we have ambitious dreams as we continue to evolve into a world-class, premium brand. These are only a few of the reasons why we're one of the first foreign companies in our industry to register in China, the largest and fastest-growing market in the world - with a population of 1.3 billion.

As we expand into China, success is inevitable. China needs antioxidants, cleanses, and detoxes - exactly what we can provide. Being able to offer these solutions to them is an incredible opportunity. We also continue to develop more awareness for our products across the globe.

As our lines and products continue to promote transformations in so many lives, more and more individuals are coming to us wanting to know more about our brand because of the influential testimonials they are seeing. We can only hope - and anticipate - that YOR Health's products and the Live Bare Movement will continue to positively impact countless more lives.

We want to say thank you for your continued support of our vision. All of our hard work this year has positioned us to take YOR Health to a whole different level this upcoming year. The timing is perfect - and the world is right in front of us.

This year's theme is **GO BEYOND**, inspired by the idea of breaking through obstacles and maximizing one's potential. When we reach our tenth birthday, we will be proud of what we've accomplished and will be well on our way to continuing to accomplish greatness.

Here's to another revolutionary year! We are ready to **GO BEYOND**. Are you?
