danish design classic >

Designed by famous Scandinavian architect Anders Norgard, the Evo chair is an evolution of Arne Jacobsen's legendary Egg chair. While it draws on the style of its predecessor, with its padded cushion seat and swivel base, the Evo comes with a more affordable price tag – fabric models start at \$1890. The Evo comes in a range of high quality fabrics and leathers, and a choice of bases. Each chair is made to order and is available in New Zealand exclusively through Danish furniture store BoConcept. For information, call 09 630 0557.

^ practical beauty

It's too easy to make small areas such as bathrooms appear cluttered. With a clear focus on simple geometry and strongly defined lines, the clean, uncomplicated forms of Caroma's new Lucid collection place fewer visual demands on your bathroom, creating a greater sense of space, and balancing functionality with aesthetics. Contact 09 279 2700 for more information.

> more mediterranean

The lightly textured Resene Sandtex Mediterranean effect is now available in a new superfine texture, combining the time-worn strength of sandstone with the mellow patina of age. Perfect for beautifying and protecting concrete, it can be used to reproduce a variety of finishes, from aged render effects through to natural limestone and sandstone finishes. The fine sandstone texture effectively disguises minor surface blemishes, while the combination of strong colour and texture can transform an ordinary surface into an architectural statement. Resene Sandtex is available in standard and superfine variants and in a wide range of your favourite colours from the Resene Total Colour System – just check with your local Resene ColorShop for your favourites.

v future design classic

Designed by Ferdinand Porsche, this new multi-level kitchen work centre is more than just a sink. Its square shape combines rational simplicity with sleek elegance, for a whole new concept in sink design. It is made from fired quartz sand and sculptured Franke Fraganite, resulting in a scratch- and chemical-resistant exterior. The chopping board, drainer tray and strainer bowl can all be slotted onto the drainer, as well as onto the main bowl. Call Burns & Ferrall on 0800 428 733 for more information.

Winstone Wallboards, in collaboration with Resene and Climate, has introduced the first innovation in the ceiling tile market for decades. The new ceiling tiles are colour matched to some of the most popular Resene whites and neutrals finishes: Resene Quarter Pearl Lusta, Resene Quarter Tea and Resene Quarter Spanish White, as well as the popular Resene Silver Aluminium. This means you can now get ceiling tiles to match your Resene colour scheme. See www.gib.co.nz for details.

^ corker

Not only does cork flooring from Cork Concepts come in 16 modern colours and can be laid and finished in one day, but it is also now available in several different modules. A large 450mm x 450mm tile is fast becoming popular with interior designers who want to use cork through the entire house. A new plank in 900mm x 100mm has unlocked a new range of design possibilities too. The traditional 305mm x 305mm tile remains always useful for smaller areas like bathrooms and laundries. Cork is a natural product that is a wonderful acoustic and thermal insulator. More and more architects are specifying it to reduce sound transmission between floors and to achieve a modern look that will last for years. For more information, visit www.corkconcepts.com or contact Cork Concepts on 09 415 3666.
