

# Soup Maker...

Heat | Blend | Serve | *Simple*

Join the soup revolution, and create your own healthy blend of hot, fresh soup in minutes...

## Heat |

Revolutionary in its design, the Cuisinart Soup Maker is the first blender to feature an integrated heater, which makes soup-making simple!

With three different settings, you can sauté, boil, heat and simmer fresh ingredients within the soup maker... the ultimate in healthy convenience cooking.

With a non-stick base to prevent burning and sticking, and a stir function that ensures optimum frying and simmering, soup preparation takes care of itself.

## Blend |

Once cooked, the Soup Maker's powerful 500W motor blends the hot soup mixture to the desired consistency, with the capacity to blend up to 1.4 litres of soup, or up to 1.75 litres of cold ingredients.

## Serve |

With the internal heater ensuring the soup is kept at the optimum temperature, your hot, fresh soup can be served directly from the stylish glass jar.

## *Simple*

From start to finish, the Cuisinart Soup Maker is all you need to create delicious, fresh, healthy soup in just 20 minutes. With a digital timer setting to programme cooking time, and a design that dismantles for easy serving and cleaning, the Cuisinart Soup Maker makes soup simple.
