# LimitLIS CLOUD

TOXICOLOGY EDITION

THE COMPREHENSIVE LIS FOR TOXICOLOGY

LIMITLIS® CLOUD: TOXICOLOGY EDITION IS A MODERN, USER-FRIENDLY LABORATORY INFORMATION SYSTEM THAT IS EASY TO USE AND QUICK TO DEPLOY. IT COMES COMPLETE WITH WORKFLOWS DESIGNED SPECIFICALLY FOR TOXICOLOGY AND PAIN MANAGEMENT LABORATORIES AND MEETS THE HIGHEST STANDARDS FOR CONTROL AND ACCURACY.
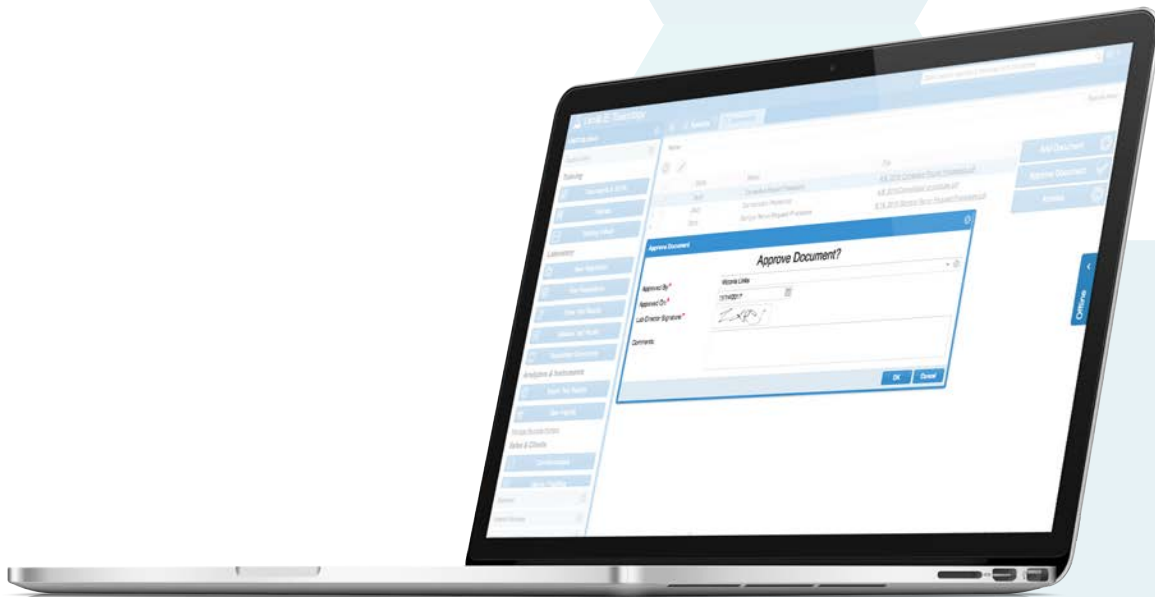

THE FEATURES OF A CUSTOM LIS
WITHOUT THE TIME AND EXPENSE

LimitLIS® Cloud: Toxicology Edition is a laboratory information system designed specifically to meet the unique needs of toxicology reference laboratories and physician owned laboratories. Intuitive, efficient, and loaded with features crucial to drug testing and pain management, LimitLIS® Toxicology is a complete modern solution that can be implemented immediately. Quality Control, SOP management, and Levey-Jennings charts are built in, making compliance easy and freeing up time and resources that are often spent compiling and checking reports.

LimitLIS® Toxicology will help you reduce turnaround time, maintain accuracy and quality of results, reduce operating expenses, communicate effectively with clients, and ensure that every aspect of your lab is running at maximum efficiency.

SIMPLE, SMART & EFFECTIVE

CONSISTENCY/INCONSISTENCY CHECKS

LimitLIS® Toxicology automatically computes consistent/inconsistent outcomes for each metabolite based on prescribed medications. The system also documents medical necessity, ICD10 diagnosis codes, and captures physician signatures for every requisition.

QUALITY CONTROL & SOP MANAGEMENT

Keep all laboratory quality documentation in one place by generating electronic Levey-Jennings charts, managing SOP's and other documents from draft to final approval, and monitoring lab personnel training records.

RAPID DEPLOYMENT

LimitLIS® Toxicology is tailored to toxicology labs and ready to use right away. It comes preconfigured with a set of toxicology panels, tests, analytes, flags, and reference ranges. You can easily add new tests and modify existing ones.

SEAMLESS COMMUNICATION & INTEGRATION

Clients can enter requisitions and view released reports in the client portal, while lab staff communicates with clients in real time via direct messaging. Instrument, EMR, and billing data flows seamlessly into the system and can be queried and exported.

REAL TIME SUPPORT

Message RURO technical support directly with the built-in chat feature and utilize the extensive interactive tutorials and training videos to help guide your staff and ensure quick adoption of the system.
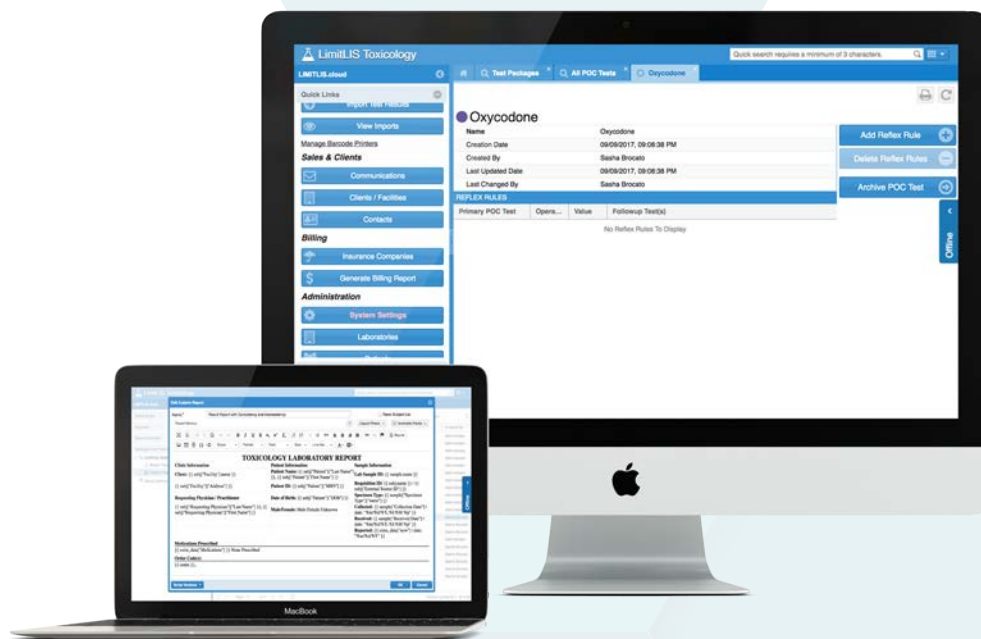

CLOUD-BASED

LimitLIS® Toxicology is one of the few cloud-based LIS systems available, eliminating the need for dedicated IT staff and infrastructure. All your data is securely stored in one central system and accessible whenever and wherever you need it.

TRY LIMITLIS® TOXICOLOGY FOR FREE

See for yourself how LimitLIS® Toxicology can help run your lab with a free, convenient 14-day online trial. Explore the system's many features at your own pace, and remember, RURO experts are here to answer your questions and provide input every step of the way.
