

1.

Introduction

Consider Us Your Personal Revenue Catalyst

At Pension Innovations & Consulting (PIC) we know that *an adequately designed qualified retirement plan is not enough*. Your clients want assurance that you will be their partners in the process. That's where we come in. Working together, we can help you realize a greater financial return while minimizing your time investment. We are committed to your success.

Proactive, Objective Design

Because we focus solely within the area in which we are experts, and are proactive in our delivery, this frees you up to continue doing what you do best – building your business. You can also rest assured that our guidance and suggestions are objective. We do not sell investment products nor do we receive outside recompense for the consult we provide.

Let us be your partner in growth

You can be confident that we will exceed your expectations as we're in it for the long haul –and the growth of your bottom line. Pension Innovations and Consulting is entering its second decade and maintains a team with over 175 years experience. This tenure is due, in large part, to relationships built between brokers like you. We look greatly forward to a continued success together.
