

Our Stories

We are Saint Luke's Nurses.

Romona and Megan, NICU Department RNs...

Whether you're experienced or just starting out, a career in the Neonatal ICU is an adventure every day, as Megan and Romona found out. Drawn to the NICU by her love of babies, Megan turned to nursing after being unsatisfied in the corporate world. Every week as a new nurse, she's amazed by how many medical miracles she is a part of. On the other hand, Romona is still just as amazed by the growth she's seen in her unit even after 40 years. Now as Co-Chair of the Unit Nursing Professional Development Committee, she continues to inspire and be inspired every day. That's the Saint Luke's experience.

We are currently seeking RNs to work with Romona and Megan in our NICU Department. Candidates must have a current Missouri and/or Kansas RN license, BLS and NRP certification and at least 1 year of experience.

Our award-winning health system stands out because of the commitment of our people. We offer a reputation for excellence and all of the benefits of one strong system.
