

Benefits of Engineered Hardwood Flooring in Jupiter, Florida

Engineered hardwood flooring in Jupiter wants to help you create that prestigious look you have been dreaming about. Awaken the underlying character in your home with a fresh finish. Let the natural glow of wood floors add a spark to your family's lifestyle.

Choosing to install wood floors provides aesthetic benefits and so much more. Let's look at some of the benefits that you and your family will be able to reap through the installation of engineered hardwood flooring.

Add Value to your Home

Engineered hardwood flooring is durable and resilient against damage. Depending on which type of wood you choose, you will probably never have to replace it. For example, engineered oak boards can last over 100 years.

When comparing that to a 10-year window for laminate floors and an average carpet – engineered wood floors offers a long term and cost-effective solution.

Since the properties of engineered hardwood flooring are fitted with real wood – the value of your home will increase within the housing market.

Suitable for a Range of Environments

Since engineered wood floors don't swell, or warp, it makes them suitable for those damp and humid spaces. You want to cover a sub floor like ceramic tiles or vinyl – no problem. Engineered floors can be installed right on top giving your room a brand-new look.

Re-invent that basement level without the worry of extra damage ruining the floor. Give us a call here in Jupiter and we will answer any questions.

Low Maintenance

Got kids? Spills are endless. A benefit of having wood floors reduces your worry of constantly policing the kids and the area. On a well-treated wood floor just grab a mop and it's done. Forget the carpet shampooer and other expensive cleaning treatments – especially for that red Kool-Aid or that little bit of red wine that hubby kicked over.

Conclusion

The timeless beauty of a real wood floor opens new realms for your home – whether your style is charming country, chic, or modern. In Jupiter we offer hundreds of colors and designs for your new engineered hardwood flooring. Give us a call, Jupiter Florida.

The benefits are in your favor. Engineered flooring is a cost-effective investment with a guarantee of timeless beauty and stylish practicality.
