## Metrix Jewelry

As a native New Yorker and graduate of NYC's prestigious Fashion Institute, Metrix Jewelry founder Lisa Mignoli knows that no two people on Earth are quite the same. Metrix Jewelry is based on just that - individuality. Each piece of jewelry is designed and handcrafted by Lisa herself with geometric shapes, leather, metal and brass. She creates her futuristic style by thinking outside the box.

"When I design a piece, I love to combine materials that aren't usually put together," she says. Lisa's creative method gives Metrix its signature style - futuristic, funky and always unique. One of her favorite material combinations is her signature black leather with brass, which has a meaning that we can all relate to.

"The black leather represents the darkness inside us all, which we're always trying to escape," Lisa explains. "The shine of the brass represents the light - depending on the piece, either the dark takes over or the light shines through."

Even though multiples are produced, each piece is always special and unique because of its handcrafted nature. Custom orders are available as well - contact Lisa at [metrixjewelry \[!at\] gmail.com](mailto:metrixjewelry[at]gmail.com) for more info!
