

#AmazingGelatine and #AmazingCollagen at IFT2018

[Find Out More IFT Details](#)

Hello << Test First Name >>

Since its founding in 1939, the Institute of Food Technologies (IFT) has been merging science and food into a single culinary world that is every bit as exciting as it is unique. And next week, GELITA #AmazingGelatine and #AmazingCollagen are taking over at IFT's Annual Event and Food Expo in downtown Chicago.

Not all collagen and gelatine are the same, and their levels of concentration, purity, and overall quality can vary widely from source to source. To learn why industry experts and innovators trust GELITA more than anyone else for pure protein, clean-label ingredients, stop by [Booth #S2955](#) to taste the difference for yourself. We're teaming up with a local Chicago bakery to make GELITA's show-dedicated samples stand out as this year's IFT favorite. Our experts will be giving out the most delectable and dazzling mirror-glazed cake pops made fresh using our very own nutritious #AmazingGelatine.

We can't wait to introduce ourselves and introduce you to the #AMAZING versatility of Gelatine and Collagen Peptides. Until then, you can visit our website for more information or to schedule a meeting with us and guarantee your slot in our IFT schedule.

To schedule an appointment or if you have questions please contact us directly!
