

Here is where your Memories are Made.

My name is Ben, and I started Memories Made events planning after planning my own wedding on a set budget. It was the best day of my life - I was surrounded by the people I love and who love me, and everything I'd always wanted was at my wedding - my partner and I even served our guests loaded cones from a vintage ice cream truck!

After watching every intricate feature and plan I'd put in place come together before my eyes, I was inspired to help others plan the event of their dreams.

With an eye for detail, colour schemes and endless fun, Memories Made is built on the foundation of making your celebration a memory you'll treasure for life.

Whether it's a wedding, an important birthday milestone, a christening or a wake, I'll listen to your vision and make it a reality.

Send me a message if you'd like to enquire about our services!

Let's get your Memories Made.
