**EMERGENCY? CALL US 24/7: 07494 891 226**

**Mechanical** and **electrical** engineering specialists, operating within **domestic, commercial** and **industrial settings**.

Revolutionary in the world of industrial engineering, Mechtricity offers you an all-in-one solution. Combining both **mechanical** ([hyperlink to your mechanical services page](#)) and **electrical** ([hyperlink to your electrical services page](#)) engineering services, Mechtricity saves you the **time, hassle** and **disruption** of having to outsource to an electrical engineer.

With 20 years of experience and certified through both NAPIT and IPAF, Mechtricity offers a huge range of services, from **domestic installations** and **rewiring**, to the **installation, servicing** and **maintenance** of industrial and commercial-use machinery.

**HAVE AN EMERGENCY? CALL US 24/7: 07494 891 226**

## About

### ABOUT US

Mechtricity was created with our customers in mind, providing a diverse range of services specializing within the Mechanical & Electrical Industry. We pride ourselves in being able to provide you with multi skilled engineers with a huge wealth of knowledge and experience to ensure you receive first class customer service & satisfaction with rapid response and cost effective solutions.

With our unique merge of Electrical & Mechanical Engineering this enables us to be versatile when providing our services from Domestic Electrical work to large scale Industrial Solutions. We are proud to provide you with bespoke service & maintenance packages, periodic electrical inspections, Installation, commissioning & de-commissioning of machinery, Pipework design & Installation working with both compressed air and nitrogen systems.

### ABOUT US

Mechtricity was created as a **revolutionary fix** for an international problem. When hiring a mechanical engineer, businesses often have to outsource to an electrical engineer, creating more hassle, higher costs and delays. At Mechtricity, we combine the two to offer **extensive support** for industrial and commercial businesses and their machinery.

Starting out as a singular domestic electrician, Mechtricity LTD grew into the industry-dominating business you see today. Now, our founder is Mechtricity's Head Engineer, a certified **electrical** and **mechanical** engineer, and certified **electrical inspector**.

We pride ourselves in our **vast knowledge, friendly team** and **rapid, in-depth service**. Our team of multi-skilled engineers care about providing you with **first-class service** and **cost-effective solutions**.

Our unique merge of electrical and mechanical engineering as one service is what sets us apart from our competitors - we're a **versatile** company, covering a range of services from **domestic electrical work** to **large-scale industrial engineering**.

With personalised maintenance packages and completely **bespoke servicing**, Mechtricity is trusted by companies small and large to **install, service** and **maintain** their machinery.

Offering **periodic electrical inspections** by our Head Engineer, machinery **commissioning** and **decommissioning**, **pipework design** and the installation of both **compressed air** and **nitrogen systems**, Mechtricity is renowned for its specialist combined services.

## Electrical Services

**Specialists in both Mechanical & Electrical engineering within a domestic, commercial & industrial setting.**

Mechtricity offers a full range of domestic electrical services from new sockets installations to complete rewires.

**Mechanical** and **electrical** engineering specialists, operating within **domestic, commercial** and **industrial settings**.

Mechtricity offers a range of services in both **residential** and **commercial** environments. We're trusted by **landlords** and **home-owners** alike, from general fittings and installations to complete electrical rewires, and have over **20 years** experience in the electrical and mechanical engineering sector.

For our **commercial** and **industrial** clients, we offer first-class, rapid service, with an electrical inspection available from our Head Engineer.

Our electrical services are listed below - or, if you have any queries or you'd like a quote, call us on **01269 832 468**.

|  |   |
|--|---|
|  General Electrical Installation, maintenance & repair. |  Commercial Electrical Installation, maintenance & repair and testing. |
|  Landlord safety checks & certification.                |  Distribution power upgrade and replacement.                           |
|  Full/Part wire rewires.                                |  Fault finding.  |
|  Rewires & Upgrades.                                    |  Commercial lighting.  |
|  External lighting & Power.                             |  Single & 3 Phase power.   |
|  Consumer unit installation & upgrades.                 |  Electrical Installation Condition reports (EICR).                     |
|  Additional circuits.                                   |  Safety & security lighting.   |

Check unnecessarily capitalised words, like electrical installation, and I'd suggest removing the full stops at the end of each line (and on your mechanical services page) - it may make it look neater.

## Mechanical Services

### Mechanical Engineering and Compressed Air Specialists

We cover all the aspects of compressed air systems from Installation, commissioning, servicing, repair & maintenance.

**Our Engineers have over 20 years of knowledge and experience.**

**We offer a 24/7 emergency call-out repair service.**

### Mechanical Engineering and Compressed Air Specialists

We cover every stage of caring for your **pneumatics** and **compressed air** machinery; from installation, commissioning, servicing, repair and maintenance - with the electrical engineering covered too.

Keeping your machinery well serviced and maintained is **vital** to your businesses safety, security and success. With over **20 years** of knowledge and experience, Mechtricity will keep your machinery running smoothly, allowing you to focus on the **important things**.

**We offer a 24/7 emergency call-out repair service.**  
**Contact us at 07494 891 226.**

### Compressed Air Specialists

Our compressed air specialists are on hand 24 hours to bring you peace of mind that your plant/machinery is in full safe working order. It is our aim to ensure your machinery downtime is kept to an absolute minimum. With 20 years of experience we service, repair and maintain all makes of compressors and Pumps.

At Mechtricity our engineers understand the reliability of machinery is paramount to our customers for overall production and cost-effectiveness. Regular maintenance is fundamental to ensure the efficient functioning of plant and equipment so our priority, therefore, is to be on hand 24 hours a day to assist in the smooth running of your business by reducing downtime and ensuring regular maintenance checks are carried out. We offer bespoke service and maintenance packages to suit all budgets and businesses.

## Compressed Air Specialists

At Mechtricity, we know that the reliability of your plant and machinery is **paramount** to your overall production and cost. That's why we offer emergency call-outs, and aim to keep your machinery downtime to an absolute minimum. Regular maintenance and servicing of your machinery is **vital** to keeping your production running smoothly.

Having a trusted mechanical engineer on your side is also a **fundamental** if you have compressed air machinery - that's why Mechtricity are specialists in what we do, with over **20 years** of experience in the mechanical and electrical engineering industry. With our merge of both **mechanical** and **electrical** engineering, you won't face any delays having to outsource to an electrician should you face a power failure that affects your machinery - we can do it **all** for you.

**Efficient, reliable** service, with a **helpful** team and **vast experience and knowledge**.

Mechtricity is here for **you**.
